EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 25:

At line 1, replace "18" with -21--.

2. The following is an examiner's statement of reasons for allowance:

The present invention pertains test logic for testing operation of an electronic circuit and a method thereof. The prior arts, however, do not teach a test logic having a combination feature of providing a plurality of test signals to an electronic device, portioning a plurality of output signals into a first subset and a second subset, each of the plurality of output signals being associated with an output port of the electronic device, carrying the first subset of the plurality of output signals to a plurality of tester IO channels, and processing the second subset of the plurality of output signals to obtain at least one processed signal. Hence, the prior arts of record do not anticipate nor render the claimed inventions. Thus, claims 1-26 are allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
